What is this product?

Type	The Fund is an investment company with variable capital (société d'investissement à capital variable, SICAV) established for an unlimited period of time on 21 July 2015 in the form of a public limited company (société anonyme, S.A.) under Luxembourg law in accordance with the provisions of the Luxembourg law of 10 August 1915 (the “1915 Law”) on commercial companies, as amended (the “1915 Law”), and Part I of the Luxembourg law of 17 December 2010 (the “2010 Law”).
Term	The term of the Fund is unlimited, so there is no maturity date. The Fund may be dissolved and liquidated under the specific circumstances set out in the Articles of Incorporation.
Objectives	The sub-fund is actively managed. The sub-fund aims to achieve long-term increases in value, while the sustainable objective is to make a positive contribution (so-called positive impact) to sustainability. The positive impact focuses on four core sustainability themes that address global and local fields of action: - Environment, -Society, - Knowledge and – Health. In order to achieve the investment objective the sub-fund intends to make a positive net impact through investing in ICMA conform sustainable corporate bonds where the use of proceeds is used to finance environmental projects (green bonds), social projects (social bonds), the combination of these (sustainability bonds) or sustainability linked bonds. The investment universe comprises all bonds that meet the Aktia’s responsible investment principles and the sub-fund’s specific ESG screening criteria and which have undergone fundamental analysis within the core sustainability themes. The sub-fund invests at least 51% of the net fund assets in bonds and securities with the character of bonds. The focus of the sub-fund is on is on Investment Grade Bonds with the possibility to invest up to 20% of the net sub-fund assets in High Yield Bonds including investments in not-rated bonds which are limited to 3%. The sub-fund may perform derivative trades in order to hedge positions or to increase its returns. The benchmark for the sub-fund is: 100% Bloomberg MSCI Green Bond Corporate TR (EUR). The benchmark index for the sub-fund is determined by the SICAV and may be changed if necessary. The sub-fund does not aim to reproduce the benchmark. The portfolio manager may invest at their own discretion in securities or industries not included in the benchmark in order to capitalise on specific investment opportunities. The investment strategy will restrict the extent to which the portfolio holdings may deviate from the benchmark. This deviation may be material. Income shall remain in the sub-fund (or: in this unit class) and shall increase the value of the shares. This key information document describes a sub-fund of a fund. The Prospectus and the annual and semi-annual report are prepared for the entire fund. The assets and liabilities of each sub-fund are segregated from those of the other sub-funds of the fund. The shareholder has the right to switch his shares in one sub-fund into shares of another sub-fund. For further information about how to exercise that right, please refer to the detailed description in the prospectus. Where different share classes are offered within the sub-fund, an exchange of shares from one share class for shares in another share class within the sub-fund is possible, so long as the investor fulfils the conditions of the respective share class. In this case no exchange commission is charged. Depositary of the fund is State Street Bank International GmbH, Luxembourg Branch. The prospectus and current reports, the current share prices and further information about the sub-fund or further share classes of the sub-fund can be found free of charge in English language on our homepage https://fondsfinder.universal-investment.com .
Intended retail investor	The fund is designed for investors who do not yet have any experience with financial markets. The shares are subject to only minor fluctuations in value; however, this can result in the value of the shares dropping below their purchase price, and in the investor suffering capital losses. The assessment of the SICAV should not be considered investment advice; instead, it is intended to provide the investor with an initial point of reference for determining whether the fund is appropriate for their investing experience, risk tolerance and investment horizon. This share class is reserved for institutional investors under Luxembourg law and may only be subscribed by such investors. The Management Company reserves the right to require investors who wish to invest or are invested in this share class to provide evidence of their status as institutional investors.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of UI - Aktia Sustainable Corporate Bond Fund - IX/ 100% Bloomberg MSCI Green Bond Corporate TR (EUR) over the last 10 years. Markets could develop very differently in the future.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario was based on an investment between 07/2021 and 01/2023. The moderate scenario was based on an investment between 05/2016 and 05/2020. The favourable scenario was based on an investment between 01/2016 and 01/2020.

What happens if the Manufacturer is unable to pay out?

The failure of the Manufacturer will have no direct impact on your payment, since statutory regulations required that, if the Manufacturer becomes insolvent, the fund does not become part of the insolvency assets, but rather remains separate.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	1,074 EUR	1,345 EUR
Annual cost impact (*)	10.74%	3.12%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.05% before costs and 0.93% after costs.

How long should I hold it and can I take my money out early?

Recommended holding period: 4 Years

This product does not have a mandatory holding period. The recommended holding period is based either on historical data or the Manufacturer's estimate regarding the average fluctuation in the unit value, which is to be expected for this product. If you, as an investor, have a shorter investment horizon, the risk is on average higher that at the time of redemption, the unit value of the product will be lower than when you invested. There are no redemption costs or fees. However, you may return the product in accordance with the procedures indicated in the Sales Prospectus.
