AKTIA BANK'S STRATEGY FOR ENGAGEMENT

Aktia's engagement strategy is based on Aktia's Principles for Responsible Investments (Vastuullisen sijoittamisen periaatteet - Principer för ansvarsfullt investering) and Aktia's Stewardship Policy (Aktian omistajaohjauksen periaatteet - Aktias principer för ägarstyrning). ISS ESG screens and monitors the holdings of Aktia's mutual funds for cases where companies may have failed to act in full accordance with the UN Global Compact Principles. As part of Aktia's ownership practices, Aktia participates in Norm-Based Engagements conducted by ISS ESG on behalf of Aktia and Aktia's investors, as well as for other investors. Aktia considers Norm-Based Engagements to be a tool for supporting companies to act in accordance with international norms and expectations, as defined in the Global Compact principles. Aktia considers that improved transparency relating to the issues addressed in the engagement dialogues, as well as improved risk management processes in the companies, are bound to support the companies as investment cases while safeguarding the interests of different stakeholder groups and the environment.

In addition to the Norm-Based Engagement dialogues carried out by ISS ESG, Aktia also discusses ESG issues directly with companies and representatives of government entities. Aktia encourages companies to report on climate risks in accordance with the TCFD recommendations, and to report on their carbon emissions. Aktia is a signatory of the CDP climate-, water and forest initiatives, and has regularly participated in CDP's non-disclosure campaign. Aktia is a signatory of the UN Principles of Responsible Investments (PRI), and of the Climate Action 100+ initiative.

Aktia uses the Norm-Based Engagement Solution of ISS ESG to help facilitate its engagement activities. For more information about the Norm-Based Engagement Solution and ISS STOXX, we refer you to the following page and the last page of this report, respectively.

ISS ESG NORM-BASED ENGAGEMENT APPROACH

ISS ESG's Norm-Based Engagement facilitates engagement with issuers on behalf of participating investors who would like to encourage corporate disclosure of efforts taken to manage or mitigate the environmental and social risks connected to business activities or operations. By engaging collaboratively, participating asset owners and managers can wield more influence than through solo engagements, while saving time and resources.

Engagement Scope

Through ISS ESG's Norm-Based Engagement, participating investors can focus on companies that are assessed under ISS ESG Norm-Based Research to be involved in alleged or verified severe, systematic, or systemic failures to respect international norms. The engagements are categorised under the four United Nations Global Compact areas of human rights, labour rights, environment, and anti-corruption. Each engagement is identified by one or several specific topics within these areas, e.g., union rights, workplace discrimination, health and safety, child labour and forced labour within the labour rights norm area. Participating investors have the option to opt in or out of each individual company engagement.

Engagement Process

The engagement is preceded by in-depth research and fact-finding dialogues with companies and stakeholders through ISS ESG Norm-Based Research. Once a company is identified to be involved in a relevant controversy it is considered for Norm-Based Engagement, which is conducted on a rolling quarterly basis. Through these feasibility studies, ISS ESG identifies gaps in company disclosure and assesses whether investor dialogue is an appropriate means to reach the goals set by the participating investors. Influential factors include an estimation of the company's level of responsibility, mitigating steps it has taken to mitigate the possible failure to respect a norm, and availability of both stakeholder and expert sources to facilitate constructive dialogue. The engagement dialogue is initiated through letters to companies, sent by ISS ESG on behalf of participating investors. Dialogue may be conducted in writing or through calls and meetings, facilitated by ISS ESG. Some companies require repeated follow-ups to respond. Should the company remain unresponsive, enquiries are escalated to the CEO and the Board. Once efforts have been made to engage both Investor Relations and a company's Executive Management, the feasibility of engagement is re-evaluated.

Engagement Outcomes

At the outset of each engagement, clear and actionable goals are defined within four key categories: disclosure, implementation, remediation and termination. Information provided by the company through the course of the engagement dialogue is assessed against the goals. ISS ESG also assesses the company's quality of participation in the engagement. Where the goals have been fulfilled and the controversy – or the risk thereof – is assessed to have been resolved, the engagement is closed. If there is insufficient information to determine whether the goals have been fulfilled, the engagement may be suspended pending developments in the controversy or the disclosure of further information by the company and may subsequently be extended. Alternatively, where there is a poor outlook for the achievement of goals for the engagement, the dialogue may be discontinued.

ENGAGEMENT STATISTICS

Aktia Bank participated in 124 separate company engagements, covering 189 individual ESG topics. The companies engaged with are domiciled across 28 different locations. The engagements were facilitated by Aktia Bank's ESG service provider, ISS ESG. For 100 of the companies, a new engagement cycle was initiated during 2024. Some 71% of the 100 companies provided responses to the investor outreach. The total number of substantial interactions in 2024 amounted to 529.

Substantial interactions¹

529

Chart 4

Quality of Participation²

¹ Substantial interactions with issuers consist of engagement letters, company responses in writing or through a meeting, follow-up questions as well as reminders and escalations.

² **NOTE:** Quality of participation definitions: **Excellent:** The company has replied and substantially addressed all elements of the questions. **Good:** The company has replied and addressed most elements of the questions. **Adequate:** The company has replied, but only addressed some elements of the questions posed. **Poor:** The company has replied but did not address the questions posed. **Deferred:** The company has replied, acknowledging the enquiry, but may have requested more time to respond, transferred the responsibility to another function in the company, and/or agreed to schedule a meeting in which it will provide more information. **None:** The company has not replied.

Map 1: Geographic distribution of companies engaged with in 2024

ENGAGEMENT TOPICS

In 2024, in the area of human rights, the key engagement topics were indigenous rights and standards of living, followed by consumers' right to privacy. Forced labour was the dominant labour rights topic, followed by safe and healthy working conditions and just and favourable conditions of work. Most environment-focused engagement topics were related to corporate management of environmental impacts, pollution (air, water, and soil), and climate change. Within the area of anti-corruption, key engagement topics were anti-competitive behaviour and accounting /disclosure standards.

Table 1: Major engagement topics in 2024 (individual engagements may cover multiple topics)

UN GLOBAL COMPACT PRINCIPLES	NORM AREA		TOPIC AREA
1-2		Human Rights	Indigenous rights
			Standard of living
3-6		Labour Rights	Forced labour
			Safe and healthy working conditions
7-9		Environment	Environmental impacts
			Pollution (Air, Water, and Soil)
10		Anti-Corruption	Anti-competitive behaviour
			Accounting / disclosure standards

ENGAGEMENT OUTCOMES

One of the key outcomes of Norm-Based Engagement activity during 2024 is that participating investors elicited greater transparency from companies, marking a new record response rate of 71%. In most cases, improvements in disclosure and openness to dialogue were achieved gradually after persistent reminders and follow-up. Engagement success was achieved with companies which increased transparency, stopped a controversial practice, or announced a concrete and time-bound strategy for risk mitigation.

Selected Engagement Spotlights

The selected engagement spotlights below illustrate both successes and remaining work to be done in some of the major 2024 engagement topics, including environmental impact, indigenous rights, pollution, safe and healthy working conditions and standard of living.

Hochtief AG	ISIN DE0006070006
THEMES Biodiversity, Environmental impacts Indigenous rights, Living standards, Stakeholder consultation	LOCATION Canada
ACTIVITY SUMMARY	<p>In Q2 2024, ISS ESG shared a letter with Hochtief AG on behalf of participating investors regarding the company's controversies related to environmental impact and indigenous rights in Canada.</p> <p>In an engagement meeting facilitated by ISS ESG in September 2024, the company elaborated on its role in the Site C dam project as a contractor and highlighted that the environmental impact assessment (EIA) is the project owner's responsibility as part of the legal approval processes. The company further emphasised that projects like Site C are approved only after careful consideration of economic, environmental, and social benefits and that contractors only get involved after the governmental approval process is completed.</p> <p>Regarding environmental risks, the company noted that its involvement followed thorough assessments, including reviewing the government-approved EIA. The company's subsidiary Flatiron Constructors Canada Ltd. and its partners participate in mitigation efforts, such as an environmental review process and a water quality monitoring program, in the Peace River delta and Wood Buffalo National Park. The company stressed that Site C is part of Canada's clean energy transition by replacing fossil fuels with hydroelectric power.</p> <p>On social impacts, Hochtief highlighted that indigenous rights are addressed through a similar assessment process. It pointed out that in 2023, five indigenous communities settled with the government, and no further claims have been made. Hochtief emphasized that claims related to social or human rights issues should be directed to the government or the project operator, BC Hydro. Hochtief also highlighted its efforts to engage indigenous communities, including awarding over USD 150 million in contracts to indigenous contractors and providing 200,000 hours of apprenticeship training, both exceeding contractual targets. The company</p>

confirmed that its due diligence processes, including environmental and social aspects, are thoroughly embedded in its operations, although its ability to influence project design is limited once the tendering process begins.

Based on the information Hochtief provided in this engagement dialogue, the company was assessed to have made positive progress on all engagement goals of the environmental impact and indigenous rights topics in Canada. The company was assessed to have demonstrated an excellent quality of participation for both topics. ISS ESG continues to monitor the efficacy of the company's remediation measures.

TC Energy Corporation

ISIN

THEME
Indigenous rights

LOCATION
Canada

ACTIVITY SUMMARY

In Q2 2024, ISS ESG shared a letter with **TC Energy Corporation** on behalf of participating investors regarding the company's indigenous rights controversy in Canada.

In an engagement meeting facilitated by ISS ESG in September 2024, the company outlined its engagement with affected indigenous communities, especially the Wet'suwet'en First Nation, during the approval and construction of the Coastal GasLink (CGL) pipeline project. The project was approved by the British Columbia government in 2014, and the company took on the duty to consult with indigenous communities, as delegated by the Canadian government. The process was challenging due to internal divisions within the Wet'suwet'en, particularly between hereditary and elected leaders. While elected leaders supported the project, a group called "Dark House" opposed it, leading to unresolved tensions. Despite efforts, including environmental assessments, consultations, and monitoring programs, TC Energy could not reach an agreement with Dark House, which continued to oppose the project during construction, although over time, the group became more open to engagement.

TC Energy stated that it implemented various grievance mechanisms, including an ethics hotline, relationship leads, and thousands of community meetings. The company expressed confidence in the project's environmental and social approval process, stating that it has no plans for an independent third-party human rights impact assessment. TC Energy further stated that it does not expect the hereditary chiefs' opposition to change as the company believes the opposition is against industrial development more broadly. The company stated its respect to the group's right to protest and continues efforts to engage, though internal governance issues within the community remain a challenge.

Based on the information TC Energy provided in this engagement dialogue, the company was assessed to have made positive progress on all engagement goals of the indigenous rights topic in Canada. Furthermore, the company was also assessed

to have demonstrated an excellent quality of participation. ISS ESG continues to monitor the efficacy of the company's remediation measures.

Vale SA	ISIN BRVALEACNOR0
<p>THEMES</p> <p>Biodiversity, Pollution, Soil pollution, Waste management, Water pollution Industrial accident, Workplace health and safety Access to water / sanitation, Indigenous rights, Living standards, Right to life, Stakeholder consultation</p>	<p>LOCATION</p> <p>Brazil</p>
<p>ACTIVITY SUMMARY</p>	<p>In Q4 2024, ISS ESG shared a letter with Vale SA on behalf of participating investors regarding the company's water pollution controversy at the Fundão dam and safe and healthy working conditions and standard of living at the Córrego do Feijão mine in Brazil. In a written response to ISS ESG's investor enquiry in December 2024, the company addressed all three topics.</p> <p>Concerning water pollution in Brazil, the company was assessed to an excellent quality of participation. The company stated that the Doce River water can be consumed after undergoing conventional treatment by the municipal supply systems and that monitoring of surface water quality and water supply quality is carried out by national laboratories certified by Brazilian standards. Vale also shared it is appealing the ongoing fishing ban and compensates fishermen. Furthermore, Vale highlighted that the Definitive Settlement Agreement was signed in October 2024, which provides for a total financial value of approximately R\$ 170 billion.</p> <p>Concerning safe and healthy working Brazil, the company was assessed to a good quality of participation. The company shared that its labour agreements were not made within the scope of the Integral Reparation Settlement, but the company entered into several compensation agreements with workers' unions. Vale has committed to remove all tailings storage structures at the highest emergency level by 2025 and has currently one dam remaining at that level. Vale also highlighted that it is in compliance with the Global Industry Standard on Tailings Management and has intensified its preventive, corrective, and monitoring actions on its structures including the creation of a Geotechnical Risk Committee. The company also shared that it has independent third-party audits of the ongoing reparation settlement.</p> <p>Concerning standard of living in Brazil, the company was assessed to an adequate quality of participation. The company referred to its public disclosures for details on remediation and shared information about its grievance mechanisms.</p> <p>Based on the information Vale provided in this engagement dialogue, the company was assessed to have made positive progress on all engagement goals of the safe and healthy working conditions and standard of living topics, while the goal statuses for the water pollution topic remained unchanged. ISS ESG continues to monitor the efficacy of the company's initiated measures to remedy the controversies.</p>

ENGAGEMENT DETAILS

The following sections provide information on all Norm-Based Engagement activities conducted during 2024. The sections provide an overview of the dialogues held with responsive companies during the year, a list of companies which have remained unresponsive as of 31 December 2024, as well as the engagement topics which have been closed during the year.

Engagement Dialogues

This section lists all engagements in which a dialogue was established with the company, either via email or in a virtual meeting, during 2024. These engagements were initiated through an engagement enquiry sent by ISS ESG on behalf of participating investors in 2024 or a previous year. In total, responses were received from 83 companies during 2024.

The list below provides an overview of the companies that responded in 2024. The subsequent tables listed under the “Engagement Dialogues” section in the Appendix provide a synopsis of the engagement with each of these companies: the quarter and year of the initial engagement enquiry, SDG alignment, engagement topic and controversy location, and progress towards the engagement goals.

Tongling Nonferrous Metals Group Co., Ltd.

Closed engagements, initiated in 2021

Gazprom Neft PJSC
Transneft PJSC
Vestas Wind Systems A/S

Closed engagements, initiated in 2020

Mining & Metallurgical Company NORILSK NICKEL PJSC

Closed engagements, initiated in 2019

Companhia Paranaense de Energia
Gazprom PJSC
Oil Co. LUKOIL PJSC
Rosneft Oil Co.

Companies Unresponsive to Long-Standing Controversies

The following companies continue to be involved in long-standing controversies and progress is yet to be seen in Norm-Based Engagement. While ISS ESG will continue to monitor the feasibility of engagement, investor clients may consider these companies and engagement topics for further due diligence.

The identification has been made by ISS ESG based on companies which have – in the last five years and in more than one engagement cycle – been either unresponsive or where responses have been assessed as poor, as the company did not address the ESG topic(s), the engagement questions posed or provide information on the management of the issue. The identification also considered where the status for the engagement goals set for Norm-Based Engagement remain at “no measures announced”. A further factor of consideration is the status of the controversies as well as fact-finding dialogue with the company conducted under Norm-Based Research. The subsequent tables listed under the “Companies Unresponsive to Long-standing Controversies” section of the Appendix provide further details, including the quarter of initial outreach, themes and location.

For additional due diligence, investor clients may also want to consider companies with which engagement on specific topics has been discontinued, but where the controversy remains ongoing.³

Companies unresponsive to long-standing controversies (most recent engagement cycle initiated in 2024)

China Yangtze Power Co., Ltd.

NextEra Energy, Inc.

NTPC Limited

Phillips 66

Red Rock Resorts, Inc.

Samsung C&T Corp.

Shandong Gold Mining Co., Ltd.

³ To identify discontinued engagements, download the Activity Report from the Pooled Engagement Tool and within the ‘Topic-level Information’ tab, filter Column AD “Recent Activity” and select “Engagement discontinued”. To view the current NBR score of engagements, within the same tab, filter Column H “Current Norm-Based Research Score”.

Activision Blizzard, Inc.		ISIN
		US00507VAN91
	SDG ALIGNMENT	QUARTER
	SDG 16; 16.5	Q4 2023
THEME		LOCATION
Equal pay, Gender discrimination (workplace), Sexual harassment (workplace), Workplace discrimination		United States
MOTIVATION FOR CLOSING ENGAGEMENT		
ISS ESG has discontinued this engagement as Activision Blizzard, Inc. has been acquired by Microsoft Corporation. ISS ESG will continue to monitor developments for Microsoft Corporation.		

Alibaba Group Holding Limited		ISIN
		KYG017191142
	SDG ALIGNMENT	QUARTER
	N/A	Q2 2023
THEME		LOCATION
Anti-competitive behaviour		China
MOTIVATION FOR CLOSING ENGAGEMENT		
ISS ESG has closed this engagement as the underlying Norm-Based Research assessment was upgraded from Amber to Green. This change occurred because in August 2024, the China State Administration for Market Regulation (SAMR) announced that Alibaba Group Holding Limited's (Alibaba) had completed a three-year self-assessment and compliance reporting period, following an April 2021 ruling which imposed a CNY18.2 billion fine on the company for abusing its dominance in the Chinese online retail platform service market. In July 2024, the SAMR restated that Alibaba had ceased its misconduct and confirmed that the company had enhanced its compliance management system, as well as its services to merchants and consumers on its online platform. Thus, ISS ESG assesses that this controversy is no longer current, leading to no further need for engagement.		

ArcelorMittal SA		ISIN
		LU1598757687
	SDG ALIGNMENT	QUARTER
	SDG 12; 12.4	Q4 2023
THEME		LOCATION
Air pollution, Pollution, Waste management		Kazakhstan
MOTIVATION FOR CLOSING ENGAGEMENT		
ISS ESG has closed this engagement as the underlying Norm-Based Research assessment was upgraded from Amber to Green. This change occurred because In December 2023, ArcelorMittal SA announced the completion of the sale of its formerly wholly owned subsidiary JSC ArcelorMittal Temirtau, which had since 2018 been the subject of repeated allegations by local authorities and communities of releasing excessive emissions that have resulted in severe air pollution in Temirtau, Karaganda Region, Kazakhstan, to Qazaqstan Investment Corporation (QIC). Thus, ISS ESG assesses that this controversy is no longer current, leading to no further need for engagement.		
THEME		LOCATION
Air pollution, Pollution		France
MOTIVATION FOR CLOSING ENGAGEMENT		

ISS ESG has closed this engagement as the underlying Norm-Based Research assessment was upgraded from Amber to Green. This change occurred because, the company has been providing updates on its comprehensive remediation measures aimed at reducing emissions at its wholly owned subsidiary, ArcelorMittal Méditerranée S.A.S.'s Fos-sur-Mer plant in France. The company informed ISS ESG in April 2024 that an investment of over €100 million over the last ten years had reduced pollutants by a factor ranging from 45% to 85%. In October 2023, the Prefecture of Bouches-du-Rhône lifted administrative penalties and noted that a third-party auditor attested the company's adherence to emissions limits at the plant. ISS ESG continues to monitor the effectiveness of the company's remediation measures and assesses that this controversy is no longer current, leading to no further need for engagement.

Baidu, Inc.		ISIN
		KYG070341048
 SDG ALIGNMENT N/A	QUARTER	
	Q2 2023	
THEME		LOCATION
Accounting / disclosure standards		United States
MOTIVATION FOR CLOSING ENGAGEMENT		
<p>ISS ESG has closed this engagement as the underlying Norm-Based Research assessment was upgraded from Amber to Green. This change occurred because in its 2023 Annual Report, published in March 2024, iQIYI, Inc., a majority owned subsidiary of Baidu, Inc. stated that it had not received any further requests for information from the United States Securities and Exchange Commission since submitting the requested documents and information to the authority in early 2021 regarding allegations of inflating its revenues and providing misleading financial statements from 2015 to at least 2019. ISS ESG continues to monitor the company's remedial measures as well as developments on the investigation. Given the updated Green signal of this controversy, there is no need for further engagement at this time.</p>		

Barclays PLC		ISIN
		GB0031348658
 SDG ALIGNMENT SDG 17; 17.1	QUARTER	
	Q4 2022	
THEME		LOCATION
Tax irregularities		United Kingdom
MOTIVATION FOR CLOSING ENGAGEMENT		
<p>ISS ESG has closed this engagement as the underlying Norm-Based Research assessment was upgraded from Amber to Green. This change occurred because, in communication with ISS ESG in March 2024, Barclays PLC shared information demonstrating that the bank has adopted policies ensuring the payment of fair share of taxes in the United Kingdom (U.K.) since 2009. The company provided HM Revenue and Custom's confirmation that it has been operating in accordance with the spirit as well as the letter of U.K. tax law and the intentions of Parliament, including during the periods covered by the 2022 and 2023 HMRC Annual Reports. As of April 2024, there are no allegations pertaining to the matter from U.K. authorities. ISS ESG continues to monitor the effectiveness of the company's remediation measures and assesses that this controversy is no longer current, leading to no further need for engagement.</p>

THEME		LOCATION
Air pollution, Biodiversity, Climate change impacts, Environmental impacts, Pollution, Water pollution		Bangladesh
MOTIVATION FOR CLOSING ENGAGEMENT		
<p>ISS ESG has closed this engagement as the underlying Norm-Based Research assessment was upgraded from Amber to Green. This change occurred because, as of May 2024, the two units of Maitree Super Thermal Power Plant (MTSP) operated by NTPC Limited were declared operational. Bharat Heavy Electricals Limited (BHEL) was involved as a contractor to build the MTSP. According to the UNESCO World Heritage Committee the MTSP risks causing irreversible damage to the Sundarbans, a nearby UNESCO World Heritage Site. In September 2021, BHEL stated to ISS ESG that the MSTP project is implemented in line with relevant rules and regulations, as well as international guidelines such as the International Finance Corporation Performance Standards and did not envisage any negative impacts of the project on the environment. While Unit 1 and 2 of the MSTP have entered commercial operations, the cessation of BHEL's business relationship with the operator has yet to be ascertained. ISS ESG continues to monitor developments in the issue. Given the updated Green signal of this controversy, there is no need for further engagement at this time.</p>		

Bolloré SE		ISIN
		FR0000039299
	SDG ALIGNMENT	QUARTER
	SDG 16; 16.10	Q1 2024
THEME		LOCATION
Freedom of expression		France
MOTIVATION FOR CLOSING ENGAGEMENT		
<p>ISS ESG has closed this engagement as the underlying Norm-Based Research assessment was upgraded from Amber to Green. This change occurred because the lawsuits filed in previous years by Bolloré SE, a majority owned subsidiary of Compagnie de l'Odé SE, against media and civil society in France have been dismissed or settled. However, as of November 2024, the company continues to face accusations that it is infringing on pluralism of information and freedom of expression in France. In March 2023, the company stated to ISS ESG that it is committed to respect human rights and fundamental freedoms. ISS ESG continues to monitor developments in the issue. Given the updated Green signal of this controversy, there is no need for further engagement at this time.</p>

MOTIVATION FOR CLOSING ENGAGEMENT		
<p>ISS ESG has closed this engagement as the underlying Norm-Based Research assessment was upgraded from Amber to Green. This change occurred because Jirau Energia has been taking measures to adequately consult neighbouring indigenous communities. In May 2024, Jirau Energia disclosed that the consortium donated drones to Brazilian National Indigenous Foundation and conducted a Remote Territorial Monitoring workshop for indigenous peoples for the purpose of territorial protection. ISS ESG continues to monitor the effectiveness of the company's remediation measures and assesses that this controversy is no longer current, leading to no further need for engagement.</p>		

Experian Plc		ISIN
		GB00B19NLV48
	SDG ALIGNMENT	QUARTER
	N/A	Q2 2023
THEME		LOCATION
Consumer privacy, Consumer rights		United Kingdom
MOTIVATION FOR CLOSING ENGAGEMENT		
<p>ISS ESG has closed this engagement as the underlying Norm-Based Research assessment was upgraded from Amber to Green. This change occurred because in April 2024, the United Kingdom Upper Tier Tribunal rejected in full the Information Commissioners Office's (ICO) appeal of a previous February 2023 First-tier Tribunal (FTT) ruling in favor of Experian Limited, which challenged ICO's October 2020 enforcement notice concerning how the company collected users' data since 2015. In May 2024, following the decision, ICO confirmed that it would not appeal further. In its April 2024 decision, the UTT acknowledged the FTT's decision to dismiss ICO's appeal, especially considering that the FTT "found no other material contravention" in Experian's practice. Thus, ISS ESG assesses that this controversy is no longer current, leading to no further need for engagement.</p>

This report and all of the information contained in it, including without limitation all text, data, graphs and charts, is the property of ISS STOXX and/or its licensors and is provided for informational purposes only. The information may not be modified, reverse-engineered, reproduced or disseminated, in whole or in part, without prior written permission from ISS STOXX. However, subscribing clients participating in the Norm-Based Engagement covered by this document may reproduce and/or distribute the report without further permission from ISS STOXX.

This report and the recommendations, ratings and/or other analytical content in the report has not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body.

The user of this report assumes all risks of any use that it may make or permit to be made of the information. While ISS STOXX exercised due care in compiling this report, ISS STOXX makes no express or implied warranties or representations with respect to the information in, or any results to be obtained by the use of, the report. In particular, the recommendations, ratings and/or other analytical content in the report are not intended to constitute an offer, solicitation or advice to buy or sell securities nor are they intended to solicit votes or proxies. ISS STOXX shall not be liable for any losses or damages arising from or in connection with the information contained herein or the use of, reliance on, or inability to use any such information.

Please note the issuer(s) mentioned within this report and/or material may have a commercial relationship with ISS Corporate Solutions, Inc. ("ISS-Corporate"), a wholly owned subsidiary of Institutional Shareholder Services Inc., or ISS-Corporate may have provided advisory or analytical services to the issuer(s) in connection with the information described in this report. No employee of ISS-Corporate played a role in the preparation of this report. If you are an institutional client of ISS STOXX, you may inquire about any issuer's use of products and services from ISS-Corporate via ProxyExchange or by emailing disclosure@issgovernance.com.

Additionally, the issuer(s) mentioned within this report and/or material may be a client of ISS STOXX, or the parent of, or affiliated with, a client of ISS STOXX. One or more of the proponents of a shareholder proposal at an upcoming meeting may be a client of ISS STOXX, or the parent of, or affiliated with, a client of ISS STOXX. None of the sponsors of any shareholder proposal(s) played a role in preparing this report.

ISS STOXX is majority owned by Deutsche Börse AG ("DB"), an international exchange organization. Both ISS STOXX and DB have established standards and procedures to protect the integrity and independence of the research, recommendations, ratings and other analytical offerings ("Research Offerings") produced by ISS STOXX. Further information about conflict mitigation can be found [here](#).
